PROJECTS

Airline Reservation System 🔗 | Java, Java Swing, AWT, SQL, OOPs, JDBC Driver

- This app is made for a flight admin, where the admin is the person who handles all of the flight companies' operations using our app. **key points to highlight.**
- Features: **Customer Creation, Customer Search, Customer Data Updation, Flight Creation, Ticket Booking, User Creation.**
- The app will only be accessible to authorized users, and this will be facilitated by a login screen that will require a username and password.

Student Grade Calculator 🔗 | HTML, CSS, JavaScript

- Each student has to enter respective subject marks and see all output.
- Features: **Find Total, Find Percentage, Find Grade, Check Pass or Fail.**

Tic Tac Toe 🔗 | HTML, CSS, JavaScript

- About Project **Tic Tac Toe** , **Xs and Os** is a paper-and-pencil game for two players, **X** and **O**, who take turns marking the spaces in a 3×3 grid. The player who succeeds in placing three of their marks in a horizontal, vertical, or diagonal row is the winner.
